TE TAOKOTAI'ANGA APII

TE KUMITI APII

Publishing Note: *The School Association - The School Committee*. Edition: 4. Effective Date - 8th June, 2016.

Kia Orana

Meitaki maata to all those who give their time and energy so freely to support our schools through membership of a School Committee.

The role of the Committee is to support and promote the interests of the school and bring about cooperation between the school, parents and other community members on education initiatives.

The School Committee is not school management, which is the responsibility of the Principal, but the Committee's support to the Principal through providing advice on community matters and helping with school projects is always greatly appreciated.

This is your child's school and it is important that the policies of the school not only reflect the legal and regulatory requirements but also reflect the community it serves. Your role in policy development is vital to ensuring that the school policies create the school and learning environment you want for your child. This will take time and commitment and again I thank you for being prepared to give this.

I truly hope that your involvement on the Committee will provide you with an opportunity to contribute to the development of our young people and give you confidence in the quality learning opportunities and education our schools are striving to provide for the next generation.
